Trade-marks Journal

2017-08-23 — Vol. 64 No. 3278

Canada

Trade-marks Journal

Vol. 64 No. 3278

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Computer software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations; application programming interface (API) software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing , storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations; computer software for electronic mail, messaging, chat and social networking; computer software for creating, displaying and sharing emoticons; software for purchasing and subscribing to digital media content, namely video games, music, movies and animations; computer software development tools, namely an application programming interface that provides access to text, games, game content, digital images, music, audio recordings, video clips, movies and animations; software for developing and publishing applications for interactive streaming; software development kits (SDK's) for developing software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations; software that enables users to designate specific content, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations for future viewing on a website; software for organizing the broadcast of television (TV) programming; electronic game, music and movie streaming devices, namely video game consoles, computers, tablet computers, mobile phones, smart phones, personal digital assistants, electronic book readers; computer hardware; computer hardware with specialized features for enhanced game playing; game consoles and controllers; software for playing computer, video and downloadable electronic games; computer games; downloadable electronic games; video games; computer software for management and storage of digital media, namely text, games, game content, digital images, music, audio recordings, video clips, movies and animations; character and voice recognition software; computer software for creating, placing, transmitting and measuring the effectiveness of advertisements; computer software for accessing, browsing and searching online databases; software for filtering internet searches; parental control software; downloadable audio recordings featuring music; downloadable video recordings featuring video games, movies, and television shows; downloadable music, movies and documentaries; electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; software that allows gamers to live broadcast their games from a gaming console, and to watch games being played by others

SERVICES

(1) Advertising the goods and services of others; marketing the goods and services of others, namely providing marketing strategies for others; promoting the goods and services of others via contests; retail services featuring books and magazines; online retail services featuring books and magazines; retail store services featuring clothing; retail store services featuring gaming videos, gaming hardware and game software; retail store services featuring downloadable audio, video, multimedia, emoticons, badges, images and chat colors; retail store services featuring virtual goods and merchandise for use by members of an online community in connection with a designated website featuring streaming video games and related content; retail services in respect of enhancements and components within games; retail store services featuring video game consoles, computers, tablet computers, mobile phones, smart phones, personal digital assistants, electronic book readers, computer and mobile communications computer hardware, software and electronic publications; promotional sponsorship of others in the field of video games, video gamers, and video gaming events; arranging financial sponsorships for others in the field of video gaming; administration and coordination of team leagues in the field of video gaming; administration and coordination of recreational opportunities for individuals who wish to participate in team leagues in the field of video gaming; providing a searchable website, portal, forum, application, and database where advertisers, marketers, and content providers can reach, engage, and interact with online users for the purposes of promotion or advertising; promoting the goods and services of others through placing advertising in conjunction with gaming

(2) Streaming of digital media content in the field of video gaming on the Internet; streaming of games on the Internet; streaming of audio, video and audiovisual material in the field of video gaming on the Internet; video on demand transmission services; providing user access to digital data and content in a data network, namely internet access provider services; providing a website for live streaming gaming content, music, audio recordings and video clips of video games, and animations; providing access to game-related information, audio, music, video and animation via websites; providing online forums, chat rooms, blogs, portals and online communities over the Internet; Internet audio broadcasting in the field of video gaming; Internet video broadcasting in the field of video gaming; electronic mail and messaging services; communications services, namely transmission of voice recordings, audio recordings, visual digital images and data, namely text, games, game content, music, video clips, movies and animations by telecommunications networks, wireless communications networks, the Internet, information services networks and data networks; broadcasting and webcasting services in the field of video gaming; music and movie streaming and broadcasting services; transmission of news via the Internet

(3) Entertainment services, namely, providing online games; entertainment services, namely, providing online videos featuring games being played by others; entertainment services, namely, live performances by musical groups; entertainment services, namely, live performances by game players; entertainment services, namely, providing a web site where users can access and view gaming-related information, music, videos, movies and animation; providing information and news relating to gaming and music; blogs featuring articles on gaming and gaming-related activities; arranging and conducting competitions for game players; providing online non-downloadable music ; providing online videos featuring music; live music concerts; music production and publishing; entertainment services, namely, organizing and producing gaming and music events; organizing,

conducting and operating game tournaments; organizing gaming leagues; organization of gaming competitions, including electronic, computer and video games; providing online news, and information services in the fields of e-sports, video gaming, video games and video game players; providing online news, articles, blogs, portals, webcasts, podcasts, information, commentary and strategies related to games, including electronic, computer and video games; providing games on social networks; providing enhancements within games, including electronic, computer and video games; publishing of game software; providing virtual environments in which users can interact through social games; providing virtual environments in which users can interact for recreational, leisure, or entertainment purposes; organizing software developer conferences; organizing conferences in the field of gaming, video gaming and digital video gaming content; education and training services in the field of software development; publishing of books, electronic books, magazines, periodicals, literary works, visual works, audio works, and audiovisual works; publishing of online works of others featuring user-generated text, audio, video, and graphics; providing a website featuring online publications; entertainment services, namely, providing online non-downloadable music tailored to viewer's programming preferences; entertainment services, namely, providing online non-downloadable virtual clothing, colors, badges, tools and weapons for use in virtual environments created for entertainment purposes; providing educational training, namely online tutorials in the field of video gaming and video games; providing online entertainment and music tailored to viewer's programming preferences; arranging of contests and sweepstakes; providing non-downloadable movies and documentaries; providing information, news and commentary in the field of gaming and entertainment

(4) Storage of electronic media, namely, digital images, text, video clips, and audio recordings; providing online software and software as a service for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, and animations; providing online software and software as a service for electronic mail, messaging, chat and social networking; providing online software and software as a service for creating, displaying and sharing emoticons; providing online software and software as a service for purchasing and subscribing to digital media content, namely video games, music, movies and animations; providing online software and software as a service for software development in the field of video games; providing online software and software as a service for developing and publishing applications for interactive streaming; providing online software and software as a service to enable users to designate specific content, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations for future viewing on a website; providing online software and software as a service for organizing the broadcast of television (TV) programming; providing online software and software as a service for management and storage of digital media, namely text, games, game content, digital images, music, audio recordings, video clips, movies and animations; providing online software and software as a service for character and voice recognition; providing online software and software as a service for creating, placing, transmitting and measuring the effectiveness of advertisements; providing online software and software as a service for accessing, browsing and searching online databases; providing online software and software as a service for filtering internet searches; providing online software and software as a service for parental control enabling access to games, including electronic, computer and video games; consulting services in the field of gaming technology and graphics software; computer programming services; providing temporary use of non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing temporary use of non-downloadable computer software for computer graphics;

providing temporary use of non-downloadable game software; platform as a service (PaaS) featuring computer software platforms for gaming and graphic design; providing virtual computer systems and virtual computer environments through cloud computing; providing cloud computing provider services for general storage of data; computer services, namely cloud computing web hosting services; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; design and development of computer hardware, software and peripherals for others; application service provider (ASP), namely web hosting of the computer software applications of others; hosting of third party digital content, namely photos, videos, audio, music, text, data, images, software, applications, games, web sites and other electronic works on the Internet; hosting of digital content, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations on the Internet; computer hardware, software, application, and network consulting services; digital and electronic file data transfer from one format to another; provision of Internet and computer network search engines; graphic design services; design of advertisements and advertising material for others; Software as a Service (SAAS) featuring software for facilitating audio, video and digital content creation, subscription services and one-time purchases in the field of video gaming; creating an online community for computer users to participate in discussions, obtain feedback, form virtual communities, and engage in social networking; software maintenance, installation and update services; providing temporary use of non-downloadable analytics software, namely, software that provides statistics about the behavior of viewers of online advertising, videos, movies, music, pictures, images, text, photos, games, and other content; software as a service that allows gamers to live broadcast their games from a gaming console, and to watch games being played by others

(5) Online social networking services; online social networking services, namely, facilitating social introductions and interactions among individuals; social networking services in the fields of entertainment, gaming and application development; providing an Internet website portal for engaging in social networking; providing communication services, namely, social networking via the Internet and mobile communication devices for users to participate in online gaming, online games, online video games and online gaming applications; providing links to the websites of others in the area of social networking services where customers play online games; providing information about social networks where users participate in online gaming, online video games and online video gaming applications; social networking services, namely, providing virtual environments in which users can interact through social games for recreational, leisure or entertainment purposes; providing online social networking services, namely, an online portal for consumers to play online computer games and electronic games and access and share enhancements within games; online social networking services, namely, providing an online portal for consumers to share information relating to games provided online; providing information, news, commentary, education, tutorials and advice to users of a social networking platform in the field of games and gaming activities

Goods

Computer software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations; application programming interface (API) software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing , storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations; computer software for electronic mail, messaging, chat and social networking; computer software for creating, displaying and sharing emoticons; software for purchasing and subscribing to digital media content, namely video games, music, movies and animations; computer software development tools, namely an application programming interface that provides access to text, games, game content, digital images, music, audio recordings, video clips, movies and animations; software for developing and publishing applications for interactive streaming; software development kits (SDK's) for developing software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, interacting with, transferring, and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations; software that enables users to designate specific content, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations, for future viewing on a website; software for organizing the broadcast of television (TV) programming; electronic game, music and movie streaming devices, namely video game consoles, computers, tablet computers, mobile phones, smart phones, personal digital assistants, electronic book readers; computer hardware; computer hardware with specialized features for enhanced game playing; game consoles and controllers; software for playing computer, video and downloadable electronic games; computer games; downloadable electronic games; video games; computer software for management and storage of digital media, namely text, games, game content, digital images, music, audio recordings, video clips, movies and animations; character and voice recognition software; computer software for creating, placing, transmitting and measuring the effectiveness of advertisements; computer software for accessing, browsing and searching online databases; software for filtering internet searches; parental control software; downloadable audio recordings featuring music, natural soundscapes, recordings of live events in the field of video games, and spoken word recitations; downloadable video recordings featuring video games, movies, and television shows; downloadable music, movies and documentaries; electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; software that allows gamers to live broadcast their games from a gaming console, and to watch games being played by others

SERVICES

(1) Advertising the goods and services of others; marketing the goods and services of others, namely providing marketing strategies for others; promoting the goods and services of others via contests; retail store services featuring clothing, buttons, posters, backpacks, games, game hardware, gaming peripherals, books and magazines; online retail store services featuring clothing, buttons, posters, backpacks, games, game hardware, gaming peripherals, books and magazines; retail store services featuring clothing; retail store services featuring gaming videos, gaming hardware and game software; retail store services featuring downloadable audio, video, multimedia , emoticons, badges, images and chat colors; retail store services featuring virtual goods and merchandise for use by members of an online community in connection with a designated website that features streaming video games and related content found thereon; retail services in respect of enhancements and components within games; retail store services featuring video game consoles, computers, tablet computers, mobile phones, smart phones, personal digital assistants, electronic book readers, computer and mobile communications computer hardware, software and electronic publications; promotional sponsorship of others in the field of video games, video gamers, and video gaming events; arranging financial sponsorships for others in the field of video gaming; administration and coordination of team leagues in the field of video gaming; administration and coordination of recreational opportunities for individuals who wish to participate in team leagues in the field of video gaming; providing a searchable website, portal, forum, application, and database where advertisers, marketers, and content providers can reach, engage, and interact with online users for the purposes of promotion or advertising; promoting the goods and services of others through placing advertising in conjunction with gaming

(2) Streaming of digital media content in the field of video gaming on the Internet; streaming of games on the Internet; streaming of audio, video and audiovisual material in the field of video gaming on the Internet; video on demand transmission services; providing user access to digital data and content in a data network, namely Internet access provider services; providing a website for live streaming gaming content, music, audio recordings and video clips of video games, and animations; providing access to game-related information, audio, music, video and animation via websites; providing online forums, chat rooms, blogs, portals and online communities over the Internet; Internet audio broadcasting in the field of entertainment, sports and video gaming; Internet video broadcasting in the field of entertainment, sports and video gaming; electronic mail and messaging services; communications services, namely transmission of voice recordings, audio recordings featuring music, natural soundscapes, recordings of live events in the field of video games, and spoken word recitations, visual digital images and data, namely text, games, game content, music, video clips of video games, movies and animations by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; broadcasting and webcasting services in the field of sports and video gaming; music and movie streaming and broadcasting services; transmission of news via the Internet

(3) Entertainment services, namely, providing online games; entertainment services, namely, providing online videos featuring games being played by others; entertainment services, namely, live performances by musical groups; entertainment services, namely, live performances by game players; entertainment services, namely, providing a web site where users can access and view gaming-related information, music, videos, movies and animation; providing information and news relating to gaming and music; blogs featuring articles on gaming and gaming-related activities; arranging and conducting competitions for game players; providing online non-downloadable music ; providing online videos featuring music; live music concerts; music production and publishing; entertainment services, namely, organizing and producing gaming and music events; organizing, conducting and operating game tournaments; organizing gaming leagues; organization of gaming competitions, including electronic, computer and video games; providing online news and information services in the fields of e-sports, video gaming, video games and video game players; providing online news, articles, blogs, portals, webcasts, podcasts, information, commentary and strategies related to games, including electronic, computer and video games; providing games on social networks; providing enhancements within games, including electronic, computer and video games; publishing of game software; providing virtual environments in which users can interact through social games; providing virtual environments in which users can interact for recreational, leisure, and entertainment purposes; organizing software developer conferences; organizing conferences in the field of gaming, video gaming and digital video gaming content; education and training services in the field of software development; publishing of books, electronic books, magazines, periodicals, literary works, visual works, audio works, and audiovisual works; publishing of online works of others featuring user-generated text, audio, video, and graphics; providing a website featuring online publications; entertainment services, namely, providing non-downloadable prerecorded music, information in the field of music, and commentary and articles about music, all via a global computer network; entertainment services, namely, providing online non-downloadable virtual clothing, colours, badges, tools and weapons for use in virtual environments created for entertainment purposes; entertainment services, namely providing an online website portal for consumers to play on-line computer games and electronic games and share game enhancements and game strategies; providing educational training, namely, online tutorials in the field of video gaming and video games; providing online entertainment and music tailored to viewer's programming preferences; arranging of contests and sweepstakes; providing non-downloadable movies and documentaries; providing information, news and commentary in the field of gaming and entertainment

(4) Storage of electronic media, namely, digital images, text, video clips, and audio recordings; providing online software and software as a service for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, namely text, games, game content, digital images, music, audio recordings and video clips of video games, and animations; providing online software and software as a service for electronic mail, messaging, chat and social networking; providing online software and software as a service for creating, displaying and sharing emoticons; providing online software and software as a service for purchasing and subscribing to digital media content, namely video games, music, movies and animations; providing online software and software as a service for software development in the field of video games; providing online software and software as a service for developing and publishing applications for interactive streaming; providing online software and software as a service to enable users to designate specific content, namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations, for future viewing on a website, through an application, and via a streaming service; providing online software and software as a service for organizing the broadcast of television (TV) programming; providing online software and software as a service for management and storage of digital media, namely text, games, game content, digital images, music, audio recordings, video clips, movies and animations; providing online software and software as a service for character and voice recognition; providing online software and software as a service for creating, placing, transmitting and measuring the effectiveness of advertisements; providing online software and software as a service for accessing, browsing and searching online databases; providing online software and software as a service for filtering internet searches; providing online software and software as a service for parental control enabling access to games, including electronic, computer and video games; consulting services in the field of gaming technology and graphics software; computer programming services; providing temporary use of non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing temporary use of non-downloadable computer software for computer graphics; providing temporary use of non-downloadable game software; platform as a service (PaaS) featuring computer software platforms for gaming and graphic design; providing virtual computer systems and virtual computer environments through cloud computing; providing cloud computing provider services for general storage and maintenance of data in computer databases; computer services, namely cloud computing web hosting services; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; design and development of computer hardware, software and peripherals for others; Application service provider (ASP), namely, hosting computer software applications of others; hosting of third party content, namely photos, videos, audio, music, text, data, images, software, applications, games, web sites and other electronic works on the Internet; hosting of digital content namely text, games, game content, digital images, music, audio recordings and video clips of video games, movies and animations on the Internet; computer hardware, software, application, and network consulting services; digital and electronic file data transfer from one format to another; provision of Internet and computer network search engines; graphic design services; design of advertisements and advertising material for others; Software as a Service (SAAS) featuring platform software for facilitating audio, video and digital content creation, subscription services and one-time purchases all in the field of video gaming; creating an online community for computer users to participate in discussions, obtain feedback, form virtual communities, and engage in social networking; software maintenance, installation and update services; providing temporary use of non-downloadable analytics software, namely, software that provides statistics about the behavior of viewers of online advertising, videos,

movies, music, pictures, images, text, photos, games, and other content; software as a service that allows gamers to live broadcast their games from a gaming console, and to watch games being played by others

(5) Online social networking services; online social networking services, namely, facilitating social introductions and interactions among individuals; social networking services in the fields of entertainment, gaming and application development; providing communication services, namely, social networking via the Internet and mobile communication devices for users to participate in online gaming, online games, online video games and online gaming applications; providing links to the websites of others in the area of social networking services where customers play online games ; providing information about social networks where users participate in online gaming, online video games and online video gaming applications; social networking services, namely, providing virtual environments in which users can interact through social games for recreational, leisure and entertainment purposes; providing online social networking services, namely, an online portal for consumers to play online computer games and electronic games and access and share enhancements within games; online social networking services, namely, providing an online portal for consumers to share information relating to games provided online; providing information, news, commentary, education, tutorials and advice to users of a social networking platform in the field of games and gaming activities

Class 09
(1) Optical and electro-optical apparatus and instruments, namely optical sensors, optical scanners, avionics computers, generators of optical signals in the visible band, namely the band of the electromagnetic spectrum that is visible to the human eye, wavelengths visible to the naked eye, infrared, and laser for testing optronic equipment, namely binoculars, thermal imagers, gyro-stabilized drone pods, sighting devices mounted on military aircraft pilot helmets, head-up sighting devices mounted on airplanes, missile guidance systems, missile launch detector systems, in the fields of aeronautics, the military, and space, apparatus and instruments for testing optronic systems, namely binoculars, thermal imagers, gyro-stabilized drone pods, sighting devices mounted on military aircraft pilot helmets, head-up sighting devices mounted on airplanes, missile guidance systems, missile launch detector systems, in the fields of aeronautics, the military, and space; electronic measurement apparatus and instruments, namely altimeters, radiometers, planimeters, and orthoimage samplers, geodesic instruments, tachymeters, goniometers, graphometers, range poles, sights, namely firearm sights, levelling rods, tachographs; automatic control apparatus and instruments used to test electronic and electrical equipment and

instrumentation aboard or not aboard aquatic, air, space vehicles, and missiles, namely for testing on-board computers; control apparatus and instruments, namely automatic test benches for testing electronic, electric, and avionic equipment, namely a test system consisting of an optical sensor, optical scanner, avionic computer, and virtual reality software enabling engineers to run tests on the batteries, circuits, wiring, and speedometers of military helicopters and aircraft, military ships, armoured vehicles, trucks, and submarines; computer hardware, namely computers, microprocessors, modems, for connecting test installations via telecommunication media, the Internet, and local communications networks, computer peripherals, namely computer keyboards, computer touch screens and video monitors, digital cameras, computer and optical scanners, printers, mice; software applications for the preparation, conduct of test trials, and for the drafting of test reports for military, land, aquatic, air, and space vehicles and for apparatus for locomotion by land, air, and sea, and for military purposes; optical detectors and sensors; control and testing apparatus and instruments in the fields of aeronautics, space, industry, and transport, namely buildings, including mechanical, hydraulic, electronic installations inside said buildings, for testing military, land, aquatic, air, and space vehicles, and apparatus for locomotion by land, air, and sea, and for military purposes; control and testing apparatus and instruments, namely test benches for wiring, electrical harnesses, electrical wiring, on board or not on board, namely for military and land vehicles, namely trucks, all-terrain vehicles, armoured vehicles, tanks, air and space vehicles, marine and river surface vehicles, namely ships, submarines, airplanes, spacecraft, satellites, namely through the generation and switching of stimuli and the measurement of stimulus effects, namely aircraft flight simulators; apparatus and instruments for the control and testing of electrical insulation and continuity, namely electrical insulation and continuity test benches; apparatus and instruments for the control and testing of electrical components, namely resistance, namely metal strength testing machines, capacitors, diodes for semiconductors; electric relays; apparatus for the generation of low and high electric voltage, namely programmable power supplies, bidirectional power supplies, precision sources, current generators, electronic loads, electrical current and voltage amplifiers, four-quadrant amplifiers; diagnostic apparatus other than for medical use, namely computer scanners, diagnostic systems, namely on-board electronic and computer diagnostic systems for military, land, aquatic, air, and space vehicles, and missiles, equipped with algorithms for detecting electronic and computer anomalies, used in the aeronautics, military, and space fields; data processing equipment, namely computers, their subassemblies and their constituent parts; central processing units, namely processors for raster images, signals, digital signals, satellite signals, digital voice signals, video processors; computer software for the testing and maintenance of electronic and electric instrumentation systems used on military land vehicles and land vehicles, namely trucks, all-terrain vehicles, armoured vehicles, tanks, airplanes, spacecraft, and missiles, except rail vehicles; remote control devices for engines, namely drones, radio-controlled public works vehicles, firmware for the remote control of computer hardware; electronic display boards; benches, namely automatic control apparatus and instruments for testing electronic, on-board and not on-board, and avionic equipment, namely for testing on-board computers; radio and video transmitters and electric cables for producing test documents, namely electric cables for testing electric and electronic equipment and apparatus, namely proximity sensors, radio transceiver apparatus, radars and calculators, on-board or not on-board aquatic, air, and space vehicles and military air and sea, aquatic, space locomotion apparatus, namely ships, airplanes, trains, satellites, all of the above-mentioned products not being used in relation to maintenance, work, securing, signalling, engineering, expertise, and consulting activities in the field of rail operations.

Class 12

(2) Military vehicles for locomotion by land (except rail vehicles), by air and water, namely military aircraft and helicopters, military ships, armoured vehicles, trucks, and submarines; aeronautical apparatus, machines, namely aircraft, airplanes, helicopters; civil and military air vehicles for transporting people and payloads, namely airplanes; unmanned aerial vehicles and remotely guided vehicles other than toys, namely drones; vertical takeoff and landing aircraft; space vehicles , all of the above-mentioned products not being used in relation to maintenance, work, safety, signalling, engineering, expertise, and consulting activities in the field of rail operations.

SERVICES

Class 37

(1) Maintenance, repair, and calibration of electronic and electrical systems and instrumentation, computer installations, their peripherals and subassemblies, namely optical sensors, optical scanners, avionics computers, thermal imagers, sighting devices and head-up sighting devices mounted onto airplanes and onto the helmets of military aircraft pilots, missile launch detection and guidance systems, electronic and computer diagnostic devices for on-board computers used in military, land, aquatic, air, and space vehicles, and missiles, computers, microprocessors, modems, computer touch screens and video monitors, printers, all of the above-mentioned services not being used in relation to maintenance, work, securing, signalling, engineering, expertise, and consulting activities in the field of rail operations.

Class 38

Goods

Class 01

(1) Antifreeze; brake fluid; coolants for vehicles engines; power steering fluid; transmission fluid.

Class 04

(2) Transmission oil; industrial grease; lubricating grease for motor vehicle engines; fuel oil; industrial oil; lubricating oils for motor vehicle engines; motor oil.

Class 07

(3) Air compressors; balance shafts for engines; belts for engines; belts for machines; belts for motors; power transmission belts for machines; timing belts for engines; timing belts for machines namely timing belts for machines used in industrial applications; timing belts for motors; fan belts for engines and motors; timing belts for land vehicle engines; power operated blowers; parts of machines namely bellows; machine tools namely machine tools for the automotive industry; parts of machines namely tools namely power tools; camshafts; canisters for automobile engines; carburetors; catalytic converters; injectors for engines; fuel injection devices for internal combustion engines; compressors as parts of machines, motors and engines; connecting rods for engines and motors; pumps for cooling engines; control mechanisms for machines namely hydraulic speed controls for machines, motors and engines; fans for engines and motors; crankshafts; automotive engine blocks; cylinder heads for engines; cover for cylinder head and rocker for engines and

motors; parts of engines namely cylinder liner; distributors for vehicle engines; distributor caps for vehicle engines; exhaust gas recirculation [EGR] coolers for motors and engines; exhaust gas recirculation [EGR] valves for motors and engines; engine mounting insulator for motors and engines; exhaust pipes for land vehicle engines; exhaust valves for land vehicle engines; machine fly-wheels; parts of engines namely fuel filters; parts of machines namely fuel filters namely gas filters for engines and motors; fuel injection pumps for engines; fuel injectors for internal combustion engines; fuel pumps for land vehicle engines; parts of machines namely pulleys; machines namely pumps; glow plugs for Diesel engines; idler being parts of machines; idler pulleys being parts of machines; parts of engines namely ignition coils; parts of engines namely ignition coil harness; parts of engines namely injection nozzle and holder; intake valve for engines and motors; inter coolers for engines and motors; LPG pump drivers for engines and motors; intake manifolds for internal combustion enginges; exhaust manifold for engines; intake manifolds for engines; intake manifolds for motors; gas mixing machines; parts of engines namely fuel mixer; muffler pipes for motors and engines; oil pumps for land vehicle engines; positive crankcase ventilation [PCV] valves for motors and engines; parts of machines and engines namely pistons for engines; piston rings; radiators [cooling] for motors and engines; radiator shround for motors and engines; rocker arms for engines; rocker arms for motors; rocker arm lash adjusters for motors and engines; sparking plugs for internal combustion engines; sparking plug cables for internal combustion engines; starters for motors and engines; tensioners for machines and motors and engines; throttle bodies for engines and motors; timing belts for motors and engines; timing belt covers for motors and engines; transmission mounting insulator for motors and engines; turbochargers for machines namely turbochargers for vehicle engines; parts of machines namely valves being parts of machines, valves for industrial machinery; vaporizers for motors and engines; water separators; linear actuators; hydraulic valve actuators; pneumatic valve actuators; parts of engines namely air cleaners; air-cooled condensers; air filters for automobile engines; forging moulds for automobiles; parts of machines namely regulators for use in turbo engines in vehicles; metal engine gaskets for vehicles; gaskets, not of metal, for vehicle engines; oil coolers for engines and motors; oil filters for engines and motors; motors for air conditioner blower; motors for gas condensor (other than parts of machines) cooling fan.

Class 09

(4) Measurement apparatus namely sensors, other than for medical use namely oil level sensors, pressure sensors, sensors for determining acceleration, temperature sensors; antennas namely car antennas, radio antennas; anti-theft warning apparatus for motor cars; audio equipment namely audio amplifiers, audio receivers, audio speakers; batteries namely automotive batteries, electric batteries for vehicles; battery cables; battery boxes; battery plates; electronic control systems for machines namely electronic control systems for automobile brakes; cameras; automatic steering apparatus for vehicles namely electronic controls for automatic steering of motor vehicles, automatic steering wheels for automobiles; electrical controllers; electronic control units; fuel gauges; temperature gauges; fuses; electricity namely junction boxes; navigational instruments; relays, electric; resonators; speakers; speedometers; speedometer cables; switches, electric; tachometers; thermostats; thermostat cases; thermostat housing; time clocks; alarms; telecommunication namely transmitters; signalling lights namely blinkers; wires, electric; electronic apparatus for parking information; lighting ballasts; emergency light bars for vehicles; emergency signal transmitters.

Class 11

(5) Parts of air-conditioning installations namely fans; filters for air purifiers; air conditioning units; air dryers; hot air blowers; light bulbs; fans for gas condensers, other than parts of machines; shroud for gas condensers, other than parts of machines; evaporator namely cooling evaporators,

evaporators for air conditioners; electric heaters namely heaters for vehicles; lamps for automobiles ; lamp glasses; lamp bulbs; dryers for industrial purposes; radiator caps; air filters for air conditioning units; pulleys for compressors for automobiles air conditioners.

Class 12

(6) Anti-lock braking systems [ABS] for automobiles; structural parts for automobiles; accelerator cables for automobiles; accelerator pedals for automobiles; air bags for vehicles; air masters for automobiles; air tanks for automobiles; arms for vehicles; ashtrays for vehicles; torque converters for automobiles; anti-theft alarms for vehicles; anti-theft devices for vehicles; ATA oil pans for automobiles; ATA valve bodies for automobiles; axles for vehicles; axle carriers for automobiles; axle housings for automobiles; axle knuckles for automobiles; ball joints for automobiles; axle bearings for land vehicles; wheel bearings for land vehicles; safety belts for automobile seats; brakes for automobiles; brake boosters for automobiles; brake discs for vehicles; brake drums for vehicles; brake cylinders for vehicles; brake pads for automobiles; brake pedals for vehicles; brake shoes for automobiles; brake linings for automobiles; bumper covers for automobiles; bumper energy absorbers for automobiles; bumper guards for automobiles; bumper lips for automobiles; mouldings for automobile bumpers; bumper rails for automobiles; bumper stays for automobiles; bumper steps for automobiles; cabins for automobiles; brake calipers for vehicles; cap mounting cylinders for automobiles; automobile covers [shaped]; center facia for automobiles; frames for automobile chassis; child restraints for vehicle seats; clutch boosters for automobiles; clutch cables for automobiles; clutch covers for automobiles; clutch discs for automobiles; clutch housings for automobiles; clutch master cylinders for automobiles; clutch pedals for land vehicles; clutch power cylinders for automobiles; clutch release cylinders for automobiles; clutch release forks for automobiles; concentric slave cylinders for automobiles; console armrests for automobiles; cooling fan clutches for land vehicles; couplings for land vehicles; cowl cross bars for automobiles; cowl top covers for automobiles; crash pads for automobiles; crossmembers for automobiles; constant-velocity joints for automobiles; decks for trucks; differential carriers for automobiles; differential cases for automobiles; disc and clutch covers for automobiles; disc brake seals for automobiles; automobile door checker; automobile door handles; automobile door steps; automobile door visors; drag links for automobiles; emblems for automobiles; automobile engines; engine covers for automobiles; engine mounting rubbers for automobiles; engine oil pan for automobiles; engine undercover for automobiles; undercover for fenders for land vehicles; air filter cartridges for land vehicles; oil filter cartridges for land vehicles; floor consoles for automobiles; frame mouldings for automobiles; caps for vehicle gas tanks; doors for vehicle gas tanks; fuel pump senders for vehicle gas tanks; fuel tanks for vehicles; garnish for automobiles; gears for land vehicles; generators for automobiles; generator rectifier for automobiles; generator rotors for automobiles; generator stator for automobiles; glass mouldings for automobiles; glove boxes for vehicles; head linings for automobiles; headrests for vehicle seats; hood insulating pads for automobiles; hood strips for automobiles; idle speed control apparatus for automobiles; interior trim for automobiles; leaf springs for land vehicle suspensions; levers for automobiles; lever cables for automobiles; anti-theft locks for use on automobile steering wheels; electrical anti-theft installations for vehicles; mudguards; over running clutch for automobiles; body panels for vehicles; door panels for land vehicles; parking brakes for automobiles; pillers for automobiles; planer carriers for automobiles; power steering gear seal for automobiles; transmission mechanisms for land vehicles; motors for powered windows for land vehicles; propeller shafts for automobiles; pulse generators for automobiles; radiator grills for automobile; mirrors for use on vehicles; rearview mirrors; reservoirs for land vehicles; reservoir tank for land vehicles; car-top luggage carriers; roof panels for land vehicles; automobile roof racks; rubber bushes for automobile wheel suspensions; automobile seats; seat back organizers specially adapted for use in cars; safety belts for vehicle

seats; automobile seat covers; automobile seat cushions; security alarms for vehicles; security harness for vehicle seats; cardan shafts for vehicles; drive shafts for land vehicles; transmission shafts for land vehicles; shock absorbers for automobiles; side members for land vehicles; slack adjuster for brakes for vehicles; spare tire carriers for vehicles; spoilers for vehicles; vehicle suspension springs; shock absorbing springs for vehicles; stabilizer bars for land vehicle suspensions; steering gears for land vehicles; steering linkages for land vehicles; automobile steering wheels; column for automobile steering wheels; shafts for automobile steering wheels; strut insulator for automobiles; automobile sunroofs; automobile windscreen sunshades; sun visors for automobiles; surge air intake tank for automobile engines; parts of land vehicles namely synchronizer rings; unfinished window glass for vehicles; parts of land vehicles namely tailboard lifts; connecting rods for land vehicles, other than parts of motors and engines; tires; torque converters for land vehicles; tow bars for vehicles; rubber tracks for automobiles; transfers for transmissions for land vehicles; transmissions, for land vehicles; universal joints for land vehicles; solenoid valve for automobiles; brake valve for automobiles; expansion valve for automobiles; weather strips for land vehicles; automobile wheels; wheel brake cylinders for land vehicles; wheel covers for land vehicles; wheel cylinders for land vehicles; wheel guards for automobiles; automobile wheel hubs; cap for automobile wheel hubs; windows for vehicles; nozzle for windshield washer; windshield wiper blades; motor for windshield wipers; wiper motor arm for automobiles; wood grain upholstery for vehicles; electronic automobile dashboards; back-up warning alarms for vehicles; automobile horns; anti-theft devices for automobiles; oil screens for automobiles; gaskets for automobiles.

- Inscriptions in Chinese or Japanese characters

Foreign Character Translation/Transliteration
The Applicant confirms that the Latin transliteration of the foreign characters contained in the subject mark is A; LI; SHAN. The Applicant confirms that the first character has no meaning. It is a modal particle. It usually used in front of surname in Chinese to call somebody's name. The second character means 'inside'. The last character means 'hill'. The three Chinese characters have no meaning as a whole.
